

Dear FCC:I have had the wonderful pleasure of XM radio since i purchased a new car last fall. Because of our location and traveling north into NH where there isn't very good radio coverage, we benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear. Respectfully, I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.
